

Abacus WebConnect.

Connect to new online business opportunities now

This developer tool kit enables travel suppliers to build and deliver a robust booking engine. Your customers can now shop and book travel content anytime online, giving you opportunities to boost returns.

Abacus WebConnect lets you gain a competitive edge with the world's leading travel web tools. Besides building a customised website that allows your customers to shop and book travel content, you will be assured of quality web development and support services, backed by our strong regional expertise.

Based on Open Travel Alliance (OTA) standards, the web services in Abacus WebConnect developer toolkit provides a single point of access to all functionalities within the Abacus system.

Boost Your Revenue Streams with New Online Opportunities

Abacus WebConnect brings you many benefits associated with an online business. Get the solution today and enjoy the following benefits:

Increase revenue opportunities

Using the Internet, it is now easier to get new customers globally. You are able to gain access to the full range of content and services from Abacus. Furthermore with 24/7 availability for online bookings, customers can book directly with you at their convenience.

Focus on high-value services

Customers can now shop for their travel needs independently. This enables you to offload low-yield enquiries and shopping services to your online website and instead concentrate on providing high-value services and closing sales. It also increases efficiency by automating mundane tasks.

Build strong online presence

Besides enabling you to create an online booking website with your branded look and feel, Abacus WebConnect lets you deliver a rich user experience through a customised workflow and business logic.

In addition, it allows integration with your in-house or partner applications at your own pace and direction. You enjoy reduced development costs and are able to market your products faster.

An easy, fast and flexible solution to connect your business online. Connect your business to it today.

Integrate Your Business with the Most Effective Tools

Abacus WebConnect makes upgrading to a higher level of performance a fuss-free affair. Here is how it ensures a seamless integration:

Integrate with your existing workflow

Your business can now integrate with any in-house or external membership database systems as well as any additional cost-effective Abacus solutions. You can conceptualise application functions into tasks, which lead to task-oriented development and workflows, hence a closer interaction between business requirements and technical functionality.

Strong technical support

You can enjoy peace of mind knowing there is a local team of technical experts on whom you can depend for the development and provision of after-sales support. Backed by regional and global support teams and processes, you and your travellers have all the functionalities you need to sell travel – air, car and hotel.

Ease of implementation

With no hardware or middleware involved, your existing applications can be adapted without being changed completely. Abacus WebConnect provides service interfaces for legacy applications, extending the lifespan of existing software with redevelopment costs.

Based on industry generic technology standards, it eliminates the need for screen-scraping or translation of complex Abacus system commands, thus enabling different systems to 'talk' to each other using a single interface, written in any language.

Tap into the Growing Online Market

Abacus WebConnect makes it easy for you to have a share of the growing online market. See how easy it can get:

Easy connectivity

When you connect through Internet HTTPS, no VPN, subscribed connectivity solution or additional hardware is required.

Single and secure gateway

Abacus WebConnect uses a direct, single point of access that provides Security, Session Management and Logging for all Web Service Transactions.

Access to all key Abacus host functions

With the booking engine built using Abacus WebConnect developer toolkit, your customers can make reservations and check on the availability of air, hotel and car services.

Resource Centre

Available online 24/7, the Abacus WebConnect resource centre gives you access to a host of tools and utilities, including a list of web services available for testing.
